ITEC350
Writing a Short Survey Paper on Cloud Computing
(Team of 3~4 students)

☑ Topics: Select a topic related to computer networks.

☑ **Your final paper** (4~5 pages) must include:

Abstract

I.   Introduction

- ▪ Justification on your topic
   - You need to justify or explain why your topic is interesting to be investigated.
- ▪ Background knowledge
   - If necessary, you need to explain background knowledge of your topic to help a reader understand your proposal under the assumption that the reader is a junior or senior who took ITEC350.

II.   Literature Survey

This section must (1) explain your topics like a textbook; and (2) address advantages and disadvantages if you can tell any of them.
You might have subsections in this section.

III.   Possible Future Research Topics

IV.   Concluding Remarks

You need to address a summary of your survey including future research topics related to your topic.
