Client Worksheet for softeng16

This Client Worksheet has been designed to help you gather details of your project by asking a series of simple project-related questions. The questions are generic but there is a section at then end where your team can add anything you feel is relevant that has not been mentioned. Conversely, if there is anything you think irrelevant, please skip and move on.

1 Project Goals

1.1 What is the name this proposed system?

RU Fit

1.2 Why do you need a new software system?

A lot of people go to the gym with notepads and pens, so a phone app would be easier and more convenient.

1.3 What features would you like to see in your new system? Do you have existing documentation that will assist us develop your system more quickly?

There is no existing documentation. RU Fit will keep track of weight, reps, and muscle groups using a calendar. The user will click on a day, choose a muscle group, then log in data for the day. Possible push notifications.

1.4   How will you measure the success of this project?

Does it function well and follow client expectations.

2   Your Market

2.1   Can you give us a description of all of the different types of people that you intend to attract with your new system?

Anyone that goes to the gym for weight lifting or cardio.

2.2   Is administrator access required for your system? Who will in charge of maintenance?

No real need for an administrator.

3   Your Style

3.1   What image would you like to give to your customers with the design of your new system?

RU Fit will have a design of its own and a more modern look which will include silver/metallic sleek look.

3.2   Can you possibly provide a list of competitor's websites/systems and let us know what you think works and doesn't work for each selected?

Simple Workout Log, keeps track of what has been done but does not use a calendar.

3.3   What non-competitor's websites/systems are there that you like the design, layout or usability of that would demonstrate your preferences?

Open-ended design

3.4   Does your have an existing logo that you want to appear on your new system?

Open-ended look

4   Final Comments

Please let us know any additional information about your requirements that you think may help us achieve and understand your project more accurately.
